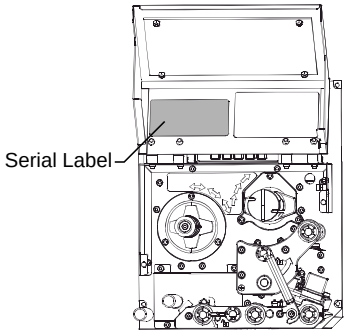
Using this Catalog

To use this catalog, identify the model number (located on the serial label on the cover, see illustration), the output direction, and the equipped options of the printer.



In this catalog, exploded views identify parts by item numbers. These item numbers reference part numbers in the table that follows the exploded view. Descriptions help ensure that you find the correct part number. Following the main printer assembly, individual assemblies provide further localization.

This catalog is arranged according to model number, print width, output direction, and options for the following printer models:

A-4212 *Mark II*
A-4310 *Mark II*
A-4408 *Mark II*
A-4606 *Mark II*
A-6212 *Mark II*
A-6310 *Mark II*
